GCE Advanced Subsidiary and Advanced Level

### MARK SCHEME for the November 2003 question papers

	9706 ACCOUNTING
9706/01	Paper 1 (Multiple Choice), maximum raw mark 30
9706/02	Paper 2 (Structured Questions), maximum raw mark 90
9706/03	Paper 3 (Multiple Choice), maximum raw mark 30
9706/04	Paper 4 (Problem Solving), maximum raw mark 120

These mark schemes are published as an aid to teachers and students, to indicate the requirements of the examination. They show the basis on which Examiners were initially instructed to award marks. They do not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the Report on the Examination.

CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the November 2003 question papers for most IGCSE and GCE Advanced Level syllabuses.

- (c) (i) Compo Ltd.'s interest cover is greater than Foggy Ltd.'s. (1)

  The greater the interest cover, the more secure are the interests of the debenture holders (1) and the shareholders. (1)
- (ii) EPS Foggy's EPS appears to be better than Compo's. (1) But Compo's shares are <sup>1</sup>/<sub>4</sub> of the nominal value of Foggy's. (1) On a comparable basis (\$0.0875 X 4) Compo's EPS is 0.3428)(1) which slightly better than Foggy's. (1)
- (iii) Dividend per share Foggy's dividend is 6.2%.(1) Compo's dividend is lower at 5% (1) (\$0.0125/0.25)
- (iv) PER Compo's ratio is three times higher than Foggy's.(1) This would suggest that investors are more confident in Compo's ability to sustain its performance.(1)
- (v) Dividend yield This is similar for both companies.(1)

(Maximum 10 marks)

- (d) (i) Trend analysis: compare the trend of each company's performance.(1) Trends indicate if a company's performance is improving, stagnant or in decline.(1)
  - (ii) Inter-company comparison.(1) Comparison with the average performance of other companies in the same trade provides a useful measure of how efficiently a company is performing (1) [4]
