BUSINESS 9609/12

Paper 1 Short Answer/Essay

October/November 2017

MARK SCHEME
Maximum Mark: 40

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2017 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is a registered trademark.

| Question | Answer | | Marks |
|----------|---|------------------------------------|-------|
| 1(a) | Define the term 'social enterprise'. | | |
| | A social enterprise is a business that has mainly social objectives (1); reinvests profits to benefit society (1); a business whose main focus is not necessarily the making or maximising of profits (1); that pursues the triple bottom line objectives (1); that engages in activities/social objectives such as creating work for the unemployed or producing in an environmentally friendly way (1). | | |
| | A definition that merits 2 marks will contain 2 of the 5 points listed ab | ove. | |
| | A partial definition that merits just 1 mark will contain only 1 of the 5 pabove. | ooints | |
| | Sound definition Partial definition – limited understanding No creditable content | (2 marks) (1 mark) (0 marks) | |
| 1(b) | Briefly explain <u>two</u> aims of a social enterprise. | | 3 |
| | NOTE: Questions 1(a) and 1(b) may well attract similar relevant points/information. Repeated material in 1(b) is perfectly accept should be rewarded as long as it is explained or developed as e for a brief explanation of distinctive social enterprise aims. Answers could include: | vidence | |
| | a social enterprise may not focus on making profits or maximisin like a normal business but rather seek to secure enough resource provide services to the community a social enterprise may seek to achieve a triple bottom line set of objectives rather than simply generate profits or maximise sales, the business a social enterprise may have as its primary purpose the provision local disadvantaged citizens who may have difficulty in securing | res to | |
| | employment in traditional ways a social enterprise may engage in business activities such as su production to support and protect the environment a social enterprise may seek to give employees a 'living wage' a supportive working environment at the expense of maximising principle. | nd a | |
| | Two distinct economic aims, two social aims or two environmental air worthy of full marks. | | |
| | Examples may be given but they are NOT required as part of an | answer. | |
| | Sound explanation of two social enterprise aims Sound explanation of one social enterprise aim or two partially explained | (3 marks) | |
| | Partial explanation of one social enterprise aim or a list of two No creditable content | (1 mark) (0 marks) | |

| Question | Answer | Marks |
|----------|---|-------|
| 3 | Explain the importance of workforce planning for the effective performance of a university. | 5 |
| | Definition – 'The analysis and forecasting of the numbers of workers and the skills of those workers that are required by an organisation to achieve its objectives'. | |
| | Some candidates are interpreting workforce planning in very general terms. Marks should be awarded only if the points made are clearly related to an accurate understanding of what workforce planning is said to involve. | |
| | Answers may include: | |
| | factors such as an ageing population, technological skill change, competition, changing consumer demands and expectations suggest the need for a relevant, agile and adaptable workforce. Some may well be important in a University workforce planning is about deciding how many and what types of workers | |
| | are required at any particular time in line with mission and strategy of an organisation | |
| | process of analysing current competencies, competencies needed in the future, building on relevant workforce is critical for business performance workforce planning provides a strategic framework for making HRM decisions; it provides methods for addressing present and future workforce | |
| | issues it gives a focus to such issues as workforce demographics, retirement projections, skill changes, succession planning, new skills required, positions that need to be filled | |
| | organisational success and performance depends on having the right employees with the right competencies at the right time; workforce planning provides a method(s) of securing this situation | |
| | workforce planning is necessary; if a business/University does not have a sound workforce planning system, it will be reactive and suffer surprises a University needs staff engaged in relevant research and teaching | |
| | Effective explanation of the importance of workforce planning for the effective performance of a University (4–5 marks) Limited explanation of the importance of workforce planning for | |
| | the effective performance of a business/organisation (2–3 marks) Understanding of workforce planning. (1 mark) No creditable content (0 marks) | |

| Question | Answer | Marks |
|----------|--|-------|
| 4(a) | Define the term 'product orientation'. Product orientation is said to be an inward-looking marketing approach (1) which has a focus on making products (1) and invests a high proportion of resources on product features rather than marketing (1). The product is made without carrying out market research (1) and then the business tries to find customers to buy it (1). A definition that merits 2 marks will contain 2 of the 5 points listed above. A partial definition worth 1 mark will contain only 1 of the 5 points above. Sound definition (2 marks) Partial definition (1 mark) | 2 |
| | Partial definition (1 mark) No creditable content (0 marks) | |
| 4(b) | Briefly explain two advantages of customer (market) orientation to a business. this is an outward-looking marketing approach where product decisions are based on customer demand as determined by market research. it is said to be very important in fast-changing, volatile, consumer markets as it allows speedy response. market research feedback allows production and marketing to be adapted to the needs of customers before competitors get there first. it may well reduce number of market failures for newly-developed products. it reduces high cost wastage of producing an unwanted product. if business responds continually to customer preferences it is more likely to be a sustainable business. Sound explanation of two advantages to a business of customer orientation. Sound explanation of one advantage to a business of customer | 3 |
| | orientation or partial explanation of two advantages. (2 marks) Partial explanation of one advantage to a business or list of two No creditable content (0 marks) | |
