Introduction

This scheme of work has been designed to support you in your teaching and lesson planning. Making full use of this scheme of work will help you to improve both your teaching and your learners' potential. It is important to have a scheme of work in place in order for you to guarantee that the syllabus is covered fully. You can choose what approach to take and you know the nature of your institution and the levels of ability of your learners. What follows is just one possible approach you could take and you should always check the syllabus for the content of your course.

Suggestions for independent study (I) and formative assessment (F) are also included. Opportunities for differentiation are indicated as **Extension activities**; there is the potential for differentiation by resource, grouping, expected level of outcome, and degree of support by teacher, throughout the scheme of work. Timings for activities and feedback are left to the judgment of the teacher, according to the level of the learners and size of the class. Length of time allocated to a task is another possible area for differentiation.

Guided learning hours

Guided learning hours give an indication of the amount of contact time you need to have with your learners to deliver a course. Our syllabuses are designed around 130 hours for Cambridge IGCSE courses. The number of hours may vary depending on local practice and your learners' previous experience of the subject. The table below give some guidance about how many hours we recommend you spend on each topic area.

Торіс	Suggested teaching time (hours / % of the course)
The fundamentals of accounting	It is recommended that this unit should take about 5 hours / 4% of the course
Sources and recording of data	It is recommended that this unit should take about 36 hours / 28% of the course
Verification of accounting records	It is recommended that this unit should take about 16 hours / 12% of the course
Accounting procedures	It is recommended that this unit should take about 16 hours / 12% of the course
Preparation of financial statements	It is recommended that this unit should take about 40 hours / 31% of the course
Analysis and interpretation	It is recommended that this unit should take about 12 hours / 9% of the course
Accounting principles and policies	It is recommended that this unit should take about 5 hours / 4% of the course

Resources

The up-to-date resource list for this syllabus, including textbooks endorsed by Cambridge International, is listed at <u>www.cambridgeinternational.org</u> Endorsed textbooks have been written to be closely aligned to the syllabus they support, and have been through a detailed quality assurance process. As such, all textbooks endorsed by Cambridge International for this syllabus are the ideal resource to be used alongside this scheme of work as they cover each learning objective.

School Support Hub

The School Support Hub <u>cambridgeinternational.org/support</u> is a secure online resource bank and community forum for Cambridge teachers, where you can download specimen and past question papers, mark schemes and other resources. We also offer online and face-to-face training; details of forthcoming training opportunities are posted online. This scheme of work is available as PDF and an editable version in Microsoft Word format; both are available on the School Support Hub at <u>cambridgeinternational.org/support</u>. If you are unable to use Microsoft Word you can download Open Office free of charge from <u>www.openoffice.org</u>

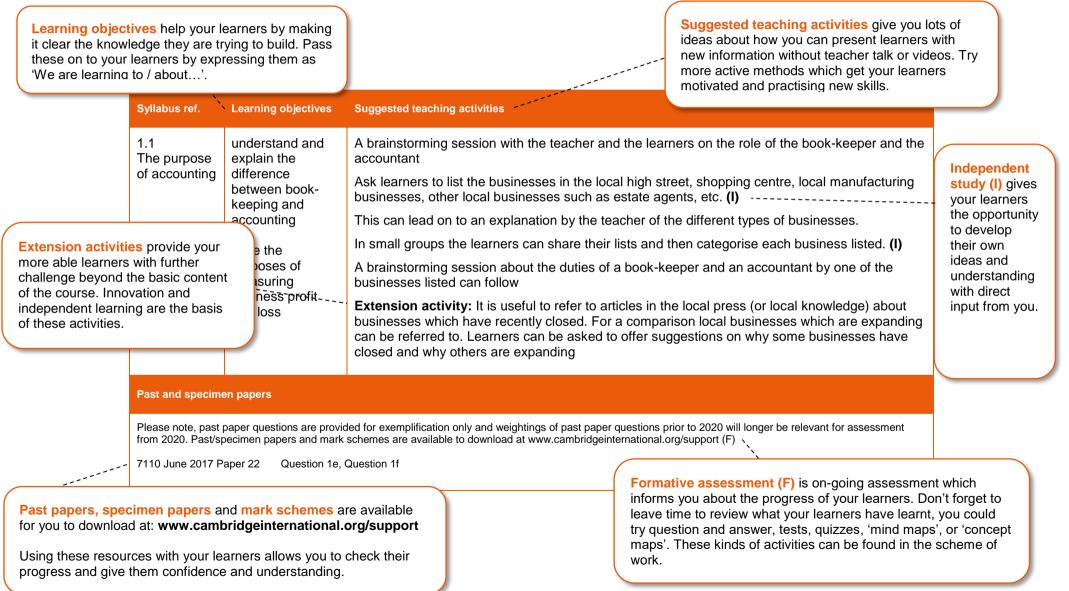

Websites

Website links have been provided below which provide direct access to internet resources for teacher reference and inspiration. Cambridge International is not responsible for the accuracy or content of information contained in these sites and it is important to note that Accounting terminology may deviate from terminology used in the 0452 syllabus. The supplied links should not be understood to be an endorsement of that website or the site's owners (or their products/services) and caution should be exercised in their use.

How to get the most out of this scheme of work – integrating syllabus content, skills and teaching strategies

We have written this scheme of work for the Cambridge IGCSE Accounting 0452 syllabus and it provides some ideas and suggestions of how to cover the content of the syllabus. We have designed the following features to help guide you through your course.

1. The fundamentals of accounting

Syllabus ref.	Learning objectives	Suggested teaching activities
1.1 The purpose	understand and explain the difference	Complete a brainstorming session with the teacher and the learners on the role of the book-keeper and the accountant.
of accounting	between book-keeping and accounting	Ask learners to list the businesses in the local high street, shopping centre, local manufacturing businesses, other local businesses such as estate agents, etc. (I)
	state the purposes of measuring business	This can lead on to an explanation by the teacher of the different types of businesses.
	profit and loss	In small groups the learners can share their lists and then categorise each business listed. (I)
	explain the role of accounting in providing information for	Complete a brainstorming session about the duties of a book-keeper and an accountant by one of the businesses listed can follow.
	monitoring progress and decision-making	The teacher and the learners brainstorm the purposes of measuring business profit and loss.
		Extension activity: It is useful to refer to articles in the local press (or local knowledge) about businesses which have recently closed. For a comparison local businesses which are expanding can be referred to. Learners can be asked to offer suggestions on why some businesses have closed and why others are expanding.
		The lists prepared for the different types of businesses can also be used as the basis of a class discussion of the need for accounting and the role it plays in decision-making.
		Ask learners to list why people may be interested in the information in the accounting records and the sorts of decisions they may need to make (I). Build up a central list on the board of the types of decisions which may need to be made.
1.2	explain the meaning of	Explain the meaning of the terms assets and liabilities.
The accounting equation	assets, liabilities and owner's equity	Prepare a series of cards with examples of assets and liabilities. Working individually, ask learners to classify each example. (I)
	explain and apply the accounting equation	

Syllabus ref.	Learning objectives	Suggested teaching activities
		Introduce the term capital.
		Introduce the accounting equation.
		Ask learners to re-arrange the accounting equation mathematically. (I)
		Provide a few exercises where the learners have to calculate the missing element of the equation. (I)
		Present a simple statement of financial position on the board or PowerPoint (this can be two-sided and does not have to make distinctions between the types of assets and liabilities). Demonstrate the effect of transactions on the contents of the statement.
		Individual learners can be invited to make the changes on the board or PowerPoint.
		Ask learners to prepare a few statements of financial position after a few transactions have taken place, either working alone or in groups. (I)
Past and spec	imen papers	
		rovided for exemplification only and weightings of past paper questions prior to 2020 will longer be relevant for papers and mark schemes are available to download at <u>www.cambridgeinternational.org/support</u> (F)
7110 Jun 2017	Paper 22	Question 1e – f

2. Sources and recording of data

2.1 The double entry	outline the double entry system of book- keeping	Explain why it is impractical to prepare a new statement of financial position after each transaction (reference can be made to the statements prepared under 1.2).
system of		Prepare a pro-forma ledger account on the board or on a PowerPoint and explain the use of the columns.
book- keeping	process accounting data using the double entry system	Prepare a number of blank ledger accounts on the board or a PowerPoint and demonstrate the double entry system of book-keeping.
	prepare ledger accounts	Use one of the exercises completed when preparing statements of financial position after a few transactions, to demonstrate the double entry exercises. Invite individual learners to make the double entries on the board. (I)
	post transactions to the ledger accounts	Ask learners to work through double entry exercises. (I)
	balance ledger accounts as required	It is essential that learners have a thorough knowledge of double entry so plenty of practice is required. The exercises can get progressively more difficult with different types of transactions being introduced. (I)
	and make transfer to financial statements	Extension activity: Before actually teaching balancing of ledger accounts ask learners to calculate how much cash is left at the end of the month, the total sales for the month etc. This can then be used as the basis for teaching the correct way to balance ledger accounts.
	interpret ledger	way to balance ledger accounts.
	accounts and their balances	After year-end financial statements have been taught, the ledger can be re-visited and year-end transfers introduced. Again, plenty of practice is essential. (I)
	recognise the division of the ledger into the sales ledger, the purchases ledger and	Display a completed ledger account on the board or a PowerPoint. Complete a brainstorming session with the teacher and the learners on the meaning of the entries within the account. The importance of precise and complete descriptions of the entries must be emphasised. Ask learners to work through similar exercises individually. (I)
	the nominal (general) ledger	Extension activity: Working in pairs, ask learners to prepare a completed ledger account. This is then passed to another pair of learners who should interpret the account and produce a list of transactions which are recorded in the account. The two groups then get together and discuss the results.
		Extension activity: The teacher and the learners brainstorm about the viability of recording every transaction in the same ledger. Encourage learners to identify a better system of recording transactions.
		Prepare a series of cards with the names of accounts. Divide learners into pairs. One learner holds up each card and the other names the ledger in which that account would be found. (I)

2.2 Business documents	recognise and understand the following business documents: invoice,	Teacher and the learners brainstorm on the documents which may be issued during the purchase and sale of goods. Encourage learners to bring in any documents they or their family may have obtained. Explain any business documents which are not familiar to learners.
	debit note, credit note, statement of account, cheque, receipt	Provide a few partially complete documents and ask learners, working individually to complete them by inserting any missing words and figures. (I)
	complete pro-forma business documents	Ask learners, working in individually or in pairs to prepare a series of business documents for a complete transaction (sales or purchase/ returns/payment) and then exchange them with another learner or group for peer assessment. (I)
	understand the use of business documents as sources of	Extension activity: Ask learners to write on each document how many copies would be required, by whom and for what purpose.
	information: invoice, credit note, cheque counterfoil, paying-in slip, receipt, bank statement	Teacher and the learners brainstorm on the use of business documents as sources of information. Build up a diagram on the board or PowerPoint to show how documents are used to record transactions.
2.3 Books of prime entry	Explain the advantage of using various books of prime entry	Prepare a set of business documents (sales and purchase invoices, credit notes, debit notes, cheques, paying-in slips, etc.) Divide the learners into groups as give each group a set of documents. Ask each group to enter the documents in the appropriate books of prime entry and ledger accounts. (I)
	explain the use of and process accounting	Once the entries have been made, exchange the accounting records with another group for peer assessment. (I)
	data in the books of prime entry: cash book, petty cash book,	As with the basic double entry exercises, it is essential that learners have a thorough understanding so plenty of practice is required. The exercises can get progressively more difficult with different types of transactions being introduced. (I)
	sales journal, purchases	Discuss the two types of discount with the learners and draw from them the reasons for these discounts.
	journal, sales returns journal, purchases	Prepare a few short exercises involving the calculation of trade discount and cash discount. (I)
	returns journal and the general journal	Introduce learners to a two column and a three column cash book by displaying a template on the board or PowerPoint.
		Demonstrate how transactions are entered in the cash book and posted to the ledger. Individual learners can be invited to make the double entries on the board. (I)

	Post the ledger entries from the books of prime entry distinguish between and account for trade	Ask learners to work through double entry exercises involving books of prime entry and the posting to the ledger. (I) These can get progressively more difficult. Extension activity: Ensure that at least one of the exercises results in a bank overdraft. Discuss with the learners how this arose and how it could have been avoided.
	discounts and cash discounts explain the dual	Extension activity: Provide learners with a list of cash transactions and ask them to determine, giving a reason, which could be regarded as petty.
	function of the cash book as a book of	Demonstrate the use of a petty cash book and the posting to the ledger.
	prime entry and as a ledger account for bank and cash	Provide some learners with petty cash voucher and nominate one learner to act as petty cashier who will then provide the others with "pretend" cash in exchange for the vouchers. The other learners can record these transactions in a petty cashbook on the board. This can then be used to demonstrate the restoration of the imprest. (I)
	explain the use of and record payments and receipts made by bank transfers and other electronic means	Ask learners to work though exercises involving petty cash and the posting to the ledger. These can get progressively more difficult so that they involve the preparation of a cash book as well as a petty cash book. (I)
	explain the apply the imprest system of petty cash	
Past and spe	cimen papers	
		provided for exemplification only and weightings of past paper questions prior to 2020 will longer be relevant for papers and mark schemes are available to download at www.cambridgeinternational.org/support (F)
Specimen Par	per 2	Question 1, Question 3e

Specimen Paper 2	QL

7110 Nov 2017 Paper 21	Qu
0452 Nov 2016 Paper 21	Qu
0452 Mar 2017 Paper 22	Qı
0452 Jun 2017 Paper 22	Qu
0452 Nov 2017 Paper 22	Qu

Question 1, Question Question 1b Question 2 Question 1a Question 1a Question 1a

3. Verification of accounting records

Syllabus ref.	Learning objectives	Suggested teaching activities
3.1 The trial balance	understand that a trial balance is a statement of ledger balances on a particular date outline the uses and limitations of a trial balance prepare a trial balance from a given list of balances and amend a trial balance which contains errors identify and explain those errors which do not affect the trial balance: commission compensating complete reversal, omission original entry principle	Make use of an exercise previously worked through by the learners to demonstrate the preparation of a trial balance. Use this to explain what a trial balance is and why it is used. Ask learners to work through exercises involving the preparation of trial balances. These can get progressively more difficult so that they involve the calculation of missing items such as capital. (I) Extension activity: Working pairs, ask learners to establish a list of what sort of items goes on each side of the trial balance. Use the lists provided by learners to draw up a table on the board covering the rules for the entries in a trial balance. Display a list of errors which could have occurred (reversal, omission, etc.). Workings in groups, or individually, ask learners to consider how each of these errors affects the trial balance. (I) Present learners with a handout containing a short double-entry exercise and answer. The answer should contain examples of each of the errors which will not be revealed by a trial balance. Working individually or in pairs ask learners to identify the errors which have been made. (I) Working in groups, learners should be asked to identify one error from each category. Exchange these with the list produced by a different group. Each group must identify the type of error and state how that error can be corrected. (I)
3.2 Correction of errors	correct errors by means of journal entries	Display a list of errors. The teacher and the learners then brainstorm on how those errors could be corrected. Re-visit the general principle of journal entries. Demonstrate the correction of errors by means of journal entries.

Syllabus ref.	Learning objectives	Suggested teaching activities
	explain the use of a suspense account as a temporary measure to balance the trial balance correct errors by means of suspense accounts adjust a profit or loss for an accounting period after the correction of errors understand the effect of correction of errors on a statement of financial position	Individual learners can be invited to make journal entries on the board. (I) Display a trial balance with an imbalance and explain the use of a suspense account. Provide a list of examples of errors which affect the agreement of the trial balance and demonstrate the entries required to correct those errors in the journal and the suspense account. Prepare a series of cards each containing an error. Ask learners to prepare entries to correct the errors. Once the entries have been made the learners exchange their answers for peer assessment. (I) Extension activity: Before teaching the effect of errors on the financial statements, ask learners to discuss how the errors they have just corrected may have affected the profit calculation and the items in the statement of financial position. Provide a list of errors and ask the learners to state which affect the profit calculation and which affect the statement of financial position. (I) Demonstrate the preparation of a statement of revised profit. Demonstrate the effect of errors on the statement of financial position. Ask learners to work though exercises involving correction of errors using the journal and a suspense account. These can get progressively more difficult. (I)
3.3 Bank reconciliation	understand the use and purpose of a bank statement update the cash book for bank charges, bank interest paid and received correction of errors, credit transfers, direct debits, dividends and standing orders	The teacher and the learners brainstorm known banking terms (may be able to link up with their business studies lessons). Lead a discussion about bank statements. Do the learners have their own bank accounts? Do their parents have a bank account? Do they keep their own records of money in and money out? Does this always agree with the balance shown on the bank statement? Compile a list of reasons for the differences on the board. Ask learners to write down how each of the each of the items on the list would affect the cash balance. (I)

Syllabus ref.	Learning objectives	Suggested teaching activities
	understand the purpose or and prepare a bank reconciliation	Prepare a list of transactions involving money in and out of the bank. Invite one learner to act as a trader and another to act as a bank employee. Each requires a board or flip chart and enters the transactions from their point of view as "directed" by the other learners. (I)
	statement to include bank errors,	The differences in the entries made and the balances shown on the two documents can be discussed.
	uncredited deposits and unpresented cheques	Demonstrate the up-dating of the bank columns of a cash book. Individual learners can be invited to make the entries on the board. (I)
		Extension activity: Before actually teaching preparation of a bank reconciliation statement ask learners, working individually or in pairs, to try to prepare a statement to show why bank statement balance does not agree with the updated cash book balance. This can then be used as the basis for teaching the correct way to prepare a bank reconciliation statement.
		Ask learners to work though exercises involving updating the cash book and preparing a bank reconciliation statement. These can get progressively more difficult such as including overdrawn balances. (I)
3.4 Control	understand the purposes of purchases	Re-visit the preparation of ledger accounts of credit customers and credit suppliers and the division of the ledger.
accounts	ledger and sales ledger control	Complete a brainstorming session with learners about the purposes of control accounts. Build up a list on the board.
	accounts	Prepare cards containing items which may be found in a control account. In pairs or small groups learners name the control account in which the item would appear and whether it is a debit or a credit entry. (I)
	identify the books of prime entry as sources	The information on the courds and the locurous' lists can then be used to demonstrate the properties of a purchases
	of information for the control account entries	The information on the cards and the learners' lists can then be used to demonstrate the preparation of a purchases ledger and a sales ledger control account. Individual learners can be invited to make entries on the board. (I)
		Re-visit the preparation of books of prime entry.
	prepare purchases ledger and sales ledger control	Discuss with the class the advantages of obtaining the information from these books rather than the ledger accounts.
	accounts to include credit purchases and sales, receipts and	Ask learners to make a list of which book of prime entry would be used to obtain the information required to prepare control accounts. (I)
	payments, cash discounts, returns,	Ask learners to work through exercises involving the preparation of control accounts. (I)

Syllabus ref.	Learning objectives	Suggested teaching activities
	irrecoverable debts, dishonoured cheques, interest on overdue accounts, contra entries, refunds, opening and closing balance (debit and credit within each account	Introduce more difficult aspects. A debit balances on a purchases ledger control account can be demonstrated by using a simple ledger account of a credit supplier who has been overpaid by the trader. Get the learners to suggest how this will appear in a purchases ledger control account. Discuss reasons for "minority" balances. Ask learners to prepare control accounts containing such balances. (I) Ask two learners to act as traders who buy from and sell to each other. Each learner will need a board or flip chart. Following "directions" from the other learners they prepare the accounts of the two traders as they would appear in each other's books. (I) Discuss with learners how one account can be set off against the other.
assessment fr	ast paper questions are p om 2020. Past/specimen	Ask learners to prepare control accounts including more challenging items such as contras and minority balances. (I) rovided for exemplification only and weightings of past paper questions prior to 2020 will longer be relevant for papers and mark schemes are available to download at <u>www.cambridgeinternational.org/support</u> (F)
Specimen Pap 0452 Nov 201 7110 Jun 201 0452 Mar 201	5 Paper 23 7 Paper 21	Question 4 Question 3a – b Question 1d – f, Question 2 Question 1a – c, Question 4a – b

4. Accounting procedures

Syllabus ref.	Learning objectives	Suggested teaching activities
4.1 Capital and revenue expenditures and receipts	distinguish between and account for capital expenditure and revenue expenditure	Extension activity: Before teaching this topic ask learners, working in pairs, to write down the name of a local business and then to make a list of say 8 payments and 8 receipts which that business may have. Ask them to try to divide these receipts and payments into different classes (giving clues to the learners about considering the length of time the payment/receipt will last, whether something tangible was sold/purchased, etc.)
	distinguish and account for capital	Follow this up with a formal introduction to capital and revenue.
	receipts and revenue receipts	Provide learners with a table containing say 20 transactions and four columns labelled capital expenditure, revenue expenditure, capital receipt, revenue receipt. Leaners tick the appropriate column for each item and exchange sheets with another learner for peer assessment. (I)
	calculate and comment on the effect on profit of incorrect treatment	Extension activity: Learners can then be provided with the same list of transactions which has been incorrectly completed. Before formally teaching profit correction, ask learners, working in groups, to calculate the effect of the errors on both the profit and the assets.
	calculate and comment on the effect on asset valuations of	This can then be used as the basis for teaching the correct way to prepare a statement of corrected profit and appropriate extracts from a statement of financial position.
	incorrect treatment	Ask learners to complete exercises classifying capital and revenue items and preparing statements of corrected profit.
		These can get progressively harder and vary in format. (I)
4.2 Accounting	define depreciation	Brainstorm with learners on why non-current assets lose value and compile a list on the board.
for depreciation	explain the reasons for accounting for	The topic of capital and revenue can be briefly re-visited.
and disposal of non- current	depreciation	If not already covered, learners can be introduced to the accounting principles of matching, prudence and historic cost and how they apply to non-current assets. If accounting principles gave already been taught, these three principles can be re-visited.
assets	straight-line, reducing balance and revaluation methods of depreciation	Introduce the main methods of calculating depreciation and demonstrate the calculations involved.

Syllabus ref.	Learning objectives	Suggested teaching activities
	prepare ledger accounts and journal entries for the	Provide exercises for the learners to complete involving calculations of depreciation using the three methods. Learners to exchange books for peer assessment. (I)
	provision of depreciation	Demonstrate the ledger entries to record depreciation. Individual learners can be invited to make entries on the board. (I)
	prepare ledger accounts and journal	Follow a similar pattern for recording depreciation in the journal and ask learners to complete exercises to record deprecation in the books of account. (I)
	entries to record the sale of non-current	Introduce the disposal of a non-current asset by demonstrating the calculation of profit/loss on disposal on the board.
	assets, including the use of disposal accounts	Provide exercises for the learners involving calculation of profit/loss on disposal of a non-current asset. Learners to exchange books for peer assessment. (I)
		Demonstrate the ledger entries to record the disposal of a non-current asset.
		Follow a similar pattern for recording depreciation in the journal.
		Ask learners to complete exercises to record deprecation in the books of account. (I) The exercises can get progressively harder.
4.3 Other payables and	recognise the important of matching costs and revenues	If not already covered, learners can be introduced to the accounting principle of matching and how it applies to expenses and items of income. If accounting principles have already been taught, this principle can be re-visited.
other receivables	prepare ledger	Illustrate the matching of expenses and incomes to the financial year by means of a "time line".
	accounts and journal entries to record accrued and prepaid	Ask learners (working individually or in pairs) to complete a series of calculations of increasing level of difficulty involving the calculation of the expense or income for the year. Encourage the use of "time-lines". (I)
	expenses	Demonstrate the ledger entries to record a prepaid expense and an accrued expense. Repeat using a similar exercise but inviting individual learners to make entries on the board. (I)
	prepare ledger accounts and journal entries to record accrued and prepaid incomes	Follow a similar pattern for a prepaid and an accrued item of income and ask learners to complete exercises to record accrued and prepaid income and expenses in the ledger. (I)

Syllabus ref.	Learning objectives	Suggested teaching activities
		Demonstrate the journal entries to record a prepaid expense and an accrued expense. Repeat using a similar exercise but inviting individual learners to make entries on the board. (I)
		Ask learners to complete exercises to record accrued and prepaid income and expenses in the journal. (I)
4.4 Irrecoverable debts and provision for doubtful debts	understand the meaning of irrecoverable debts and recovery of debts written off prepare ledger accounts and journal entries to record irrecoverable debts prepare ledger accounts and journal entries to record recovery of debts written off explain the reasons for maintaining a provision for doubtful debts prepare ledger accounts and journal	 Brief explanation of the meaning of the term irrecoverable debts. Extension activity: Before teaching this topic, ask learners, working in pairs, to write down what book-keeping entries they think will be required and to list a few reasons why an irrecoverable debt occurs and steps which could be taken to try to avoid irrecoverable debts. A brainstorming session with the teacher and the learners on why irrecoverable debts occur and how they can be reduced. Compile lists on the board. Demonstrate the ledger and journal entries required to write off irrecoverable debts. Explain what is meant by recovery of debts written off. Demonstrate ledger and journal entries to record these. Ask learners to complete exercises involving irrecoverable debts and recovery of debts written off. (I) Explanation of a provision for doubtful debts. If not already covered, learners can be introduced to the accounting principles of matching and prudence and how they apply to a provision for doubtful debts. If accounting principles have already been taught, these principles can be revisited. Demonstrate the ledger entries required for creating and adjusting a provision for doubtful debts. Individual learners can be invited to make the entries on the board. (I)
	entries to record the creation or, and adjustments to, a provision for doubtful debts	Demonstrate the journal entries required to creating and increase a provision for doubtful debts. Follow a similar pattern for a provision which requires reducing. Invite individual learners to make entries on the board. (I) Ask learners to complete exercises involving irrecoverable debts, recovery of debts written off and creating and adjusting a provision of doubtful debts. (I)

Syllabus ref.	Learning objectives	Suggested teaching activities	
		Working in pairs or small groups, ask learners to prepare a few ledger accounts (these could include the account of one or more credit customers, an irrecoverable debts account, a debts recovered account and a provision for doubtful debts account). Exchange books with another group who should then write down an interpretation of each of the entries in the accounts. (I)	
4.5 Valuation of inventory	understand the basis of the valuation of inventory at the lower of cost and net realisable value prepare simple inventory valuation statements recognise the importance of valuation of inventory and the effect of an incorrect valuation of inventory on gross profit, profit for the year, equity and asset valuation	 Explanation of the principles of inventory valuation. If not already covered, learners can be introduced to the accounting principle of prudence and how it applies to inventory valuation. If accounting principles have already been taught, this principle can be re-visited. Provide details of cost, selling price and amendments such as carriage, damaged goods, etc. for a few items of inventory. Working in groups, ask learners to prepare a simple inventory valuation statement. Exchange books with another group for peer assessment. (I) Ask learners to complete a few inventory valuation statements. (I) Re-visit profit correction and the effects of errors on asset valuation. Demonstrate the effects on the profit and the assets of incorrect valuation of inventory. Ask learners, working individually, to complete a few short exercises on the effect on financial statements of incorrect inventory valuation. (I) 	
Past and spec	cimen papers		
Please note, past paper questions are provided for exemplification only and weightings of past paper questions prior to 2020 will longer be relevant for assessment from 2020. Past/specimen papers and mark schemes are available to download at www.cambridgeinternational.org/support (F)			
Specimen Paper 2 0452 Nov 2017 Paper 22 7110 Nov 2017 Paper 21 0452 Nov 2016 Paper 21 0452 Jun 2016 Paper 22		Question 3a – d Question 3a – e, Question 5c – d Question 2a – d Question 4 Question 5d – e	

5. Preparation of financial statements

explain the advantages and disadvantages of operating as a sole trader explain the importance	Extension activity: Before explaining the advantages and disadvantages of operating as a sole trader ask learners, working in pairs, to list as many as they can. The teacher and the learners brainstorm on advantages and disadvantages of operating as a sole trader, compiling lists on the board.
operating as a sole trader explain the importance	on the board.
	Re-visit the introduction to accounting and the reasons for preparing financial statements.
statements and statements of financial position	Ask learners, working individually, to make a list of sole-trader businesses and to divide them into trading businesses and service businesses. (I)
	Using a prepared list of suitable items, demonstrate the preparation of an income statement for a trading business.
between a trading business and a service	Use a simple example initially. Explain how the cost of sales is calculated.
business prepare income	Provide learners with a template for a typical income statement for a trading business. Ask them to work through a few short exercises. (I)
statements for trading businesses and for service businesses	Demonstrate the effect of items such as returns, carriage, etc. and ask learners to work through additional exercises, which get progressively more difficult. (I)
understand that	Brainstorm with learners on how an income statement of a service business may differ from that of a trading business.
statements of financial position record assets	Demonstrate the preparation of an income statement of a service business.
and liabilities on a specified date	Ask learners to work through exercises on the preparation of income statements of service businesses. (I)
recognise and define	Re-visit previous work on the preparation of elementary statements of financial position.
the content or a statement of financial position: non-current assets, intangible	Introduce the division of the assets and liabilities into different categories.
	f preparing income tatements and tatements of financial osition xplain the difference etween a trading usiness and a service usiness repare income tatements for trading usinesses and for ervice businesses inderstand that tatements of financial osition record assets ind liabilities on a pecified date ecognise and define tatement of financial osition: non-current

Syllabus ref.	Learning objectives	Suggested teaching activities
5.1 (cont.)	current liabilities, non- current liabilities and capital	Prepare a series of cards with the names of assets and liabilities. Divide learners into pairs. One learner holds up each card and the other names the section of the statement of financial position in which the item would be found (I)
	understand the inter-	Re-visit previous work on the effect of transactions on the items within a statement of financial position.
	relationship of items in a statement of	Demonstrate how transactions will affect items within a balanced statement of financial position.
	financial position	Introduce the term "working capital". Demonstrate how transactions can affect this.
	prepare statement of financial position for trading businesses	Ask learners, working in pairs, to work through exercises on how various transactions will affect statement of financial position items. (I)
	and service businesses	Using a prepared list of items, demonstrate the preparation of a statement of financial position for a sole trader business.
	make adjustments for provision for	Provide learners with a template for a typical statement of financial position. Ask them to work through a few short exercises, which can get progressively more difficult. (I)
	depreciation using the straight-line, reducing balance and	Demonstrate the preparation of an income statement and a statement of financial position using a balanced trial balance and show how items are "ticked off" as they are entered in the statements.
	revaluation methods make adjustments for	Ask learners to complete exercises preparing financial statements from trial balances. Learners to exchange books for peer assessment. (I)
	accrued and prepaid expenses and accrued and prepaid income	Re-visit previous work on depreciation of non-current assets (types, calculation, ledger entries, and journal entries) and demonstrate how depreciation is entered in the financial statements.
	make adjustments for	Ask learners to complete exercises involving the preparation of financial statements which include depreciation (I)
	irrecoverable debts and provisions for doubtful debts	Re-visit previous work on accrued and prepaid incomes and expenses (calculation, ledger entries and journal entries) and demonstrate how accruals and prepayments are entered in the financial statements.
	make adjustments for goods taken by the owner for own use	Ask learners to complete exercises involving the preparation of financial statements which include accrued and prepaid items of income and expenses. (I)

Syllabus ref.	Learning objectives	Suggested teaching activities
		Re-visit previous work on irrecoverable debts, and provisions for doubtful debts (calculation, ledger entries, and journal entries) and demonstrate how irrecoverable debts and provisions for doubtful debts are entered in the financial statements.
		Ask learners to complete exercises involving the preparation of financial statements which include irrecoverable debts and a provision for doubtful debts. (I) and demonstrate how goods taken by the owner for personal use are recorded in the financial statements.
		Ask learners to work through double entry exercises. (I)
		It is essential that learners have a thorough knowledge of the preparation of financial statements so plenty of practice is required. The exercises can get progressively more difficult with different types of transactions being introduced. (I)
		The types of exercises can be varied – some working from a balanced trial balance, some from a list of balances, some using information provided in prose format. The method of working through exercises can be varied – some prepared individually, some in groups, some as a class exercise, some using templates and so on.
5.2 Partnerships	explain the advantages and	Extension activity: It may be able to link up with this topic in the business studies lessons.
	disadvantages of forming a partnership	Before explaining the advantages and disadvantages of forming a partnership ask learners, working in pairs, to list these advantages and disadvantages.
	outline the importance and contents of a partnership agreement	Complete a brainstorming session with the teacher and the learners on advantages and disadvantages of forming a partnership. Compile lists on the board.
	explain the purpose of an appropriation	Extension activity: Before explaining the importance and contents of a partnership agreement ask learners, working in groups, to discuss why a partnership agreement is advisable and suggest suitable items for inclusion.
	account	Brainstorm with learners on the reasons for and the composition of a partnership agreement. Compile lists on the board.
	prepare income statements,	Introduce learners to the terms interest on capital, interest on drawings, partners' salaries, and residual profit.
	appropriation accounts and statements of financial positon	Demonstrate the preparation of an appropriation account.

Syllabus ref.	Learning objectives	Suggested teaching activities
	record interest on partners' loans, interest on capital, interest on drawings, partners' salaries and the division of the balance of profit or loss make adjustments to financial statements as	Provide learners with a template for a partnership appropriation account. Ask them to work through a few short exercises. These should include both residual profits and residual losses. (I) Explain how the preparation of an income statement, with adjustments, is exactly the same as that for a sole trader, and that the appropriation statement shows how the profit calculated in the income statement is shared between the partners. Ask learners, working in pairs, to complete a few exercises involving the preparation of an income statement and appropriation account of a partnership business. (I) Explain the use of capital and current accounts and demonstrate how to prepare them, making use of one of the completed exercises preparing an income statement and an appropriation account. Individual learners can be invited to
	detailed in 5.1 (sole traders) explain the uses of and difference between capital and current accounts draw up partners' capital and current accounts in ledger account form and as part of a statement of financial positon	 Brainstorm with learners on why these separate accounts are maintained. Ask learners to complete exercises involving the preparation of capital and current accounts (at least one of these should include debit balances on a current account). (I) Extension activity: Working in groups, ask learners to discuss how a debit balance on a current account may have arisen and how it can be "removed". Explain how the preparation of a statement of financial position is exactly the same as that for a sole trader apart from the capital section. Demonstrate the presentation of the capital section of a statement of financial position of a partnership, making use of the exercise for which the capital and current accounts have just been prepared. Ask learners to work through a few exercises on the preparation of financial statements of partnerships, and the capital and current accounts of the partners. (I)
5.3 Limited companies	explain the advantages and disadvantages of operating as a limited company	Explain the meaning of the term limited liability. It may be possible to link up with the business studies lessons. Ask learners to list the names of any local, national, and international limited companies they have heard of. Take the opportunity to briefly mention the difference between price and public limited companies.

Syllabus ref.	Learning objectives	Suggested teaching activities
5.3 (cont.)	understand the meaning of the term limited liability	Extension activity: Before explaining the advantages and disadvantages of operating as a limited company ask learners, working in groups, to draw up lists of these advantages and disadvantages. The groups can also compare a limited company with a partnership.
	understand the meaning of the term equity	Brainstorm with learners the advantages and disadvantages of operating as a limited company. Compile lists on the board. A list of similarities and differences between a limited company and as partnership can also be made.
	understand the capital structure of a limited	Explain the meaning of the term equity when applied to a limited company. This explanation can be expanded after teaching the capital structure.
	company comprising preference share capital, ordinary share	Explain the capital structure of a limited company – the different types of shares (ordinary and preference) how and why reserves arise and how the retained earnings arises.
	capital, general reserve and retained earnings	Explain the difference between ordinary shares and preference shares and how these differ from debentures. It will be necessary to mention the difference between redeemable and non-redeemable preference shares in order to teach learners the different treatment of these types of preference shares.
	understand and distinguish between	Explain how shareholders receive dividends but debenture holders receive interest.
	issued, called-up and paid-up share capital	Ask learners, working in groups to complete short-answer questions, true/false questions and multiple choice questions on the differences between ordinary shares, preference shares and debentures. (I)
	understand and distinguish between share capital (preference shares	Ask learners to complete a series of short calculation exercises on the calculation of debenture interest, preference share dividend and ordinary share dividend, including interim dividends. Learners to exchange books for peer assessment. (I)
	and ordinary shares) and loan capital (debentures)	Prepare a series of cards with various terms connected to limited companies. Divide learners into pairs. One learner holds up each card and the other briefly states what is meant by that term. (I)
	prepare income	Explain how the preparation of an income statement, with adjustments, is exactly the same as that for a sole trader.
	statements, statements of changes in equity and	Explain how the preparation of a statement of financial position is exactly the same as that for a sole trader apart from the capital and reserves section.
	statements of financial positon	Explain the reason for the preparation of a statement of changes in equity.

Syllabus ref.	Learning objectives	Suggested teaching activities
	make adjustments to financial statements as detailed in 5.1 (sole traders)	Discuss the entries with the learners and demonstrate the preparation of a statement of changes in equity.
		Provide learners with a template for a statement of changes in equity. Ask them to work through a few short exercises. Learners can exchange books for peer assessment. (I)
		Demonstrate the presentation of the capital and reserves section of a statement of financial position.
		Ask learners, working individually, to work through a few exercises on the financial statements of limited companies. (I)
		Extension activity: Ask learners, working in pairs, to discuss how the items in a statement of financial position may change as a result of various transactions e.g. issue of ordinary share, transfer to general reserve, payment of a dividend, etc.
5.4 Clubs and societies	distinguish between receipts and payments accounts and income	Introduce the topic of clubs and societies by asking learners about any clubs or societies which they know of, or of which they are a member.
Societies	and expenditure accounts	Extension activity: Before explaining the topic further, ask learners, working in groups, to list the differences between a club and a business. They can also list the ways in which a club raises its funds.
	prepare receipts and payments accounts	Complete a brainstorming session with the teacher and the learners on the group discussions on clubs.
	prepare accounts for	Re-visit the topic of cash books.
	revenue-generating activities, e.g.	Re-visit the topic of capital and revenue expenditure.
	refreshments, subscriptions prepare income and	Demonstrate the preparation of a receipts and payments account. Individual learners can be invited to make entries on the board. (I)
	expenditure accounts and statements of financial position	Ask learners, working individually, to prepare receipts and payments accounts. One exercise could also involve listing items which would not be included in the account and providing reasons for this exclusion. (I)
	make adjustments to financial statements as	Re-visit the preparation of income statements for businesses.

Syllabus ref.	Learning objectives	Suggested teaching activities
	detailed in 5.1 (sole traders)	Demonstrate the preparation of an income statement for a trading activity of a club then ask learners to complete a few exercise on this topic. Learners to exchange books for peer assessment. (I)
	define and calculate the accumulated fund	Re-visit the topic of accrued and pre-paid income and the use of a "time-line".
		Provide exercises and ask learners to calculate the subscriptions relating to a financial year. (I)
		Demonstrate the preparation of a subscriptions account and ask learners to prepare subscriptions accounts. (I)
		Re-visit the preparation of an income statement of a business, including adjustments.
		Demonstrate the preparation of an income and expenditure account and ask learners to complete exercises on the preparation of income and expenditure accounts. (I)
		Working in groups, ask learners to make a list of the differences between a receipts and payments account and an income and expenditure account. (I) Brainstorm with learners on the lists prepared by the groups.
		Explain what is meant by the accumulated fund of a club and how it arises.
		Explain how the preparation of a statement of financial position is exactly the same as that for a business except that the accumulated fund replaces the capital and demonstrate the presentation of this section of the statement.
		Ask learners, working individually, to complete exercises on the financial statements of clubs and societies. (I)
		Extension activity: Before teaching the topic, ask learners, working in groups, to discuss how clubs can raise funds for various purposes.
5.5 Manufactur- ing accounts	distinguish between direct and indirect costs	Introduce the topic of manufacturing accounts by asking learners to name any local, national, or international manufacturing businesses they have heard of.
	understand direct material, direct labour, prime cost and factory overheads	Extension activity: Before explaining the topic further, ask learners, working in groups, to list all the costs that may result from a named object. Vary the object to suit the learners e.g. if the learners are female, the cost of marking a garment; if the learners are male, the cost of making a motor bike, etc.

Syllabus ref.	Learning objectives	Suggested teaching activities
	understands and make adjustments for work in progress	Brainstorm on the suggestions made by the groups. Make lists on the board or PowerPoint of the costs suggested. The lists should be divided into groups (but not headed at this point) to cover things like materials, labour costs, expenses, assets.
	calculate factory cost of production	These lists can then be broken down into factory costs and admin costs / direct costs and indirect costs / prime cost and cost of production.
	prepare manufacturing accounts, income	Ask learners, working individually, to classify a list of costs. (I)
	statements and statement of financial position	Demonstrate the preparation of a simple manufacturing account, then provide learners with a template for a manufacturing account. Ask them to work through a few short exercises. Learners can exchange books for peer assessment. (I)
	make adjustments to financial statements as detailed in 5.1 (sole	Introduce the topic of work in progress and how this affects the cost of production and demonstrate the effect of work in progress on the simple manufacturing account used for demonstration.
	traders)	Re-visit the preparation of an income statement of a business, including adjustments and explain how the trading section of an income statement for a manufacturing business differs from that of a trading business.
		Demonstrate the transfer of the cost of production to the income statement.
		Demonstrate how the three types of inventory of a manufacturer are presented in a statement of financial position.
		Ask learners, working individually, to complete exercises on the financial statements of a manufacturing business. (I)
5.6	explain the	Briefly explain that not all businesses maintain a full set of accounting records.
Incomplete records	disadvantages of not maintaining a full set of accounting records	Extension activity: Before giving further explanation ask learners, working in groups, to list any disadvantages which a trader may encounter if a full set of records is not maintained.
	prepare opening and closing statements of	Re-visit the accounting equation.
	affairs	Re-visit the preparation of the capital account of a sole trader to remind learners how profit and drawing affect capital.
	calculate profit or loss for the year from	

Syllabus ref.	Learning objectives	Suggested teaching activities
5.6 (cont.)	changes in capital over time	Demonstrate the calculation of profit from change in capital over time and ask learners, working individually, to complete a few exercise on the calculation of profit. (I)
	calculate sales, purchases, gross profit, trade	Demonstrate the preparation of opening and closing statements of affairs and the preparation of a capital account to calculate profit.
	receivables and trade payables and other figures from incomplete information	Prepare cards listing names and amounts of assets and liabilities at the start and end of a trader's financial year. Ask the learners, working in pairs, to use the information on the cards to prepare opening and closing statements of affairs and the calculation of profit in a capital account. (I)
		Re-visit the preparation of ledger accounts of credit customers and credit suppliers.
	prepare income statements and statements of financial position form incomplete records	Demonstrate the entries in an account for total trade receivables and total trade payables (compare with control accounts which are similar but prepared from different sources and for a different purpose).
		Demonstrate how "missing" figures can be calculated from these total accounts.
	make adjustments to financial statements as detailed in 5.2 (sole traders)	Ask learners, working in groups, to complete exercises involving the calculation of "missing" figures. The exercises can get progressively more difficult. For example it may be necessary to prepare a bank account to calculate the amount paid to trade payables before credit purchases can be calculated. (I)
	apply the techniques of mark-up, margin and inventory turnover to arrive at missing figures	Re-visit the preparation of financial statements of a sole trader, including adjustments.
		Ask learners, working individually, to complete exercises on the preparation of financial statements from incomplete information. (I)
		Introduce the topic of calculating mark-up and margin and rate of inventory turnover.
		Demonstrate calculations and then ask learners, working in pairs, to complete some calculations of these items.
		Demonstrate the application of these calculations to prepare the trading section of an income statement which has missing information such as revenue, purchase, opening inventory, closing inventory, where it may be necessary to "work backwards".
		Ask learners, working individually to complete exercises on the topic. These can get progressively more difficult. For example introduce a scenario where part of the inventory was destroyed and part was salvaged. (I)

6. Analysis and interpretation

Syllabus ref.	Learning objectives	Suggested teaching activities
6.1 Calculation and understand- ing of accounting ratios	understand, calculate and explain the importance of the following accounting ratios: Gross margin Profit margin Return on capital employed (ROCE) Current ratio Liquid (acid test) ratio Rate of inventory turnover (times) Trade receivables turnover (days) Trade payables turnover (days)	Provide each learner with a set of financial statements for a sole trader covering two financial years and a sheet of formulae for the ratios covered by the syllabus. Briefly explain what each ratio shows. Demonstrate the calculation of these ratios for the first financial year. Ask the learners, working individually, to calculate the ratios for the second financial year. (I) Ask learners to complete a few exercises involving ratio calculation. (I)
6.2 Interpretation of accounting ratios	prepare and comment on simple statements showing comparison of results for different years make recommendations and suggestions for improving profitability and working capital understand the significance of the	Complete a brainstorm with learners comparing the ratios for the two years in the exercise involving the calculation of ratios for two financial years. Ask learners, working in pairs, to complete exercises on comparisons of results. (I) Re-visit previous work on the inter-relationship of items in a statement of financial position. Extension activity: Before teaching the topic of recommendations for improving profitability and working capital provide learners with a set of financial statements and completed ratios. Ask learners working in groups, to discuss the information provided and suggest how the various ratios can be improved. Ask learners, working in groups, to complete exercise involving the calculation and interpretation of ratios and recommendations for improvement. (I)

Syllabus ref.	Learning objectives	Suggested teaching activities
	difference between the gross margin and the profit margin as an indicator of a business's efficiency explain the relationship of gross profit and profit for the year to the valuation of inventory, rate of inventory turnover, revenue, expenses and equity	Re-visit the preparation of an income statement and the calculation of gross profit and profit for the year. Re-visit the calculation of gross margin and profit margin. Discuss with the learners the significance of the difference between these ratios. Re-visit the calculation of the gross profit and profit for the year. Discuss with the learners how these are related to the valuation of inventory, rate of inventory turnover and other items in the financial statements.
6.3 Inter-firm comparison	understand the problems of inter-firm comparison apply accounting ratios to inter-firm comparison	 Briefly introduce the topic inter-firm comparison. Extension activity: Before giving detailed explanations ask learners, working in groups, to make a list of possible problems of trying to compare two different businesses (two specific businesses can be used for this purpose). Discuss the lists they have made and build up an overall list on the board. Divide learners into groups. Provide each group with a set of financial statements for a sole trader and ask them to calculate a set of accounting ratios. (I) Brainstorm with learners on the ratios calculated for each business. Discuss which business has produced better results and why and how the other businesses may be able to improve their ratios. Ask learners, working in pairs, to complete exercises involving the comparison of ratios of different businesses. (I)
6.4 Interested parties	explain the uses of accounting information by the following interested parties for decision-making:	

Syllabus ref.	Learning objectives	Suggested teaching activities		
	 owners managers trade payables banks investors club members other interested parties such as government tax authorities, etc. 			
6.5 Limitations of accounting statements	 be able to recognise the limitations of accounting statements due to such factors as: historic cost difficulties of definition non-financial aspects 	Re-visit the work on problems of inter-firm comparison. Discuss with learners the factors which limit the financial statements. The teacher will probably have to explain the first factor but, by asking directed questions, it may be possible to get learners to provide examples of the last two factors.		
Past and spec	imen papers
